BEST PRACTICE (SAMPLE)

Program/Activity Title: San Benito CISD District-Wide Multimedia Contest

Description of Program/Activity: The San Benito CISD School district hosts an annual multimedia contest where students create education-based projects. All of my students both in BCIS and Basic Computer Maintenance entered the contest. The four categories for the contest are Desktop Publishing, Web Page Development, Video, and Multimedia. I encourage all of my students to enter the contest either as individual contestants or group contestants. The majority of my students won a trophy; and because such a large number won trophies, the High School awarded the Sweepstakes trophy.

Materials Needed: PowerPoint, Microsoft Works

Contact Information: Laura Gonzalez
San Benito High School
